INNOVATION STUDIO

YOUR CALLING / WHAT COMES NEXT

There's more for you.

Your calling brought you this far.

You don't have to build
what's next alone.

THE QUESTION

What should exist because you exist?

WHAT YOU CARRY

You may already see the future.

You have given years to this work. Built trust. Gathered people. Carried responsibility.

Now there may be something your current world cannot yet carry. A new expression. A different vehicle. A vision that needs more hands.

We begin with you - and what matters enough to make real.

MAGIC + MACHINERY

The machinery behind the magic.

SEE

DISCERN

ENVISION

BUILD

Deep attention. Inventive judgment.
The people and capability to make it real.

The work moves between all four.

ARCHE / INNOVATION STUDIO

SEE / FUTURE READY

Years of work. A future still to make.

Nate Ruch carried a book, doctoral research and years of teaching on future leadership. Leading Emmanuel Christian Center left little room to pursue its next expression.

Luke immersed himself in that thinking for a week, including approximately 72 sermon transcripts, to understand the underlying thesis.

LUKE'S REPORTED PRACTICE / ILLUSTRATIVE IMAGERY

ARCHE

06 / 13

An opening inside an existing mission.

Nate was preparing to speak to FCA chapter leaders in Minnesota. The starting plan was to share his book.

Luke studied FCA's strategy, including students praying for five people.

What if Future Ready could give meaning and identity to something FCA was already pursuing?

ENVISION / I MAKE WAY

Give the conviction a way to travel.

I Make Way gave Future Ready an athlete-oriented expression.

A framework and identity grew into a site, app, merchandise, book and participation experience. The conviction gained a form people could engage with.

LUKE'S REPORTED PRACTICE / ILLUSTRATIVE IMAGERY

BUILD / FROM THOUGHT TO EXPERIENCE

Something you can put into the world.

We make something people can experience,
test and refine - using creative craft, technology
and AI.

I Make Way made a body of thought tangible.
Adoption is not yet established. The next work
is learning from reality and establishing the
systems and ownership to carry it.

LUKE'S REPORTED PRACTICE / ILLUSTRATIVE IMAGERY

REPORTED EXPERIENCE

The purpose stays. The answer can change.

TRANSPORTATION

The purpose: national growth.

A trade-show request became institutional relationships and a joint-venture innovation lab.

Reported expansion from 1 state to 24.

SOURCE: LUKE’S REPORTED PRACTICE. OUTCOMES NOT INDEPENDENTLY VERIFIED. CONCEPTUAL IMAGERY.

YOGA EDUCATION

The purpose: app adoption.

Coordinated local classes across time zones connected a shared experience to a course in the existing app.

Reported strong same-day adoption. Exact metrics and retention not documented.

TENNIS

The purpose: athlete funding.

Partnerships with existing brands changed who carried production, inventory and distribution.

Reported brand partnerships and athlete sponsorships. Exact metrics not documented.

THE PEOPLE BESIDE YOU

The work deserves the right people.

We assemble judgment, creative authorship
and the capacity to build around what your
work requires.

Operators, builders and specialists join around
the possibility, with clear roles and ownership
to carry it forward.

The opportunity shapes the team.

ILLUSTRATIVE COLLABORATION / NOT A TEAM PORTRAIT

WHERE WE BEGIN

Bring the vision. Or bring the question.

Bring the work you have given yourself to. The future you see. The possibility you cannot yet name.

We understand it together and make a possibility tangible. Then decide what deserves to happen next.

THERE'S MORE FOR YOU

What could we make true together?

Begin with a conversation.
